SUMMARY

As a final year software development graduate, I am equipped with the skills to develop software solutions that meet business needs. I have a passion for creating dynamic and user-friendly websites, backed up by my proficiency in web development languages such as HTML, CSS, ReactJS and JavaScript. My ability to work well in teams has been honed through various collaborative projects and internships during my studies. I am always eager to learn new technologies and implement them in my work.

INTERNSHIPS

HealthPlix Technologies

Product Management Intern

05/2022 - 07/2022

HealthPlix : India's largest EMR platform used by 10K doctors, generating 100,000 prescriptions daily.

- Worked on their Refer and Earn program by identifying key patterns and trends to suggest strategies for increasing doctor referrals.
- Conducted a comprehensive analysis of phone numbers provided by doctors using data visualization tools such as Excel and SQL to present insights and recommendations to the product team.
- Generated weekly reports and presented progress updates to the product team and stakeholders to track the success of the referral program.

Slamdunk.ai

Web Development Intern

12/2021 - 02/2022

SlamDunk.ai: A next-generation AI coach to learn a new sport

- Designed and developed a fully functional website from the wireframes using a no-code platform: Squarespace.
- Collaborated with a team of designers and developers to create wireframes using Figma and utilized HTML and CSS to customize the website's design and functionality, improving the user experience.

Aashman Foundation

Project Management Intern

06/2021 - 08/2021

Aashman Foundation : India's largest youth-run NGO to support underprivileged children

- Successfully planned and executed 50+ webinars on YouTube and Instagram Live, with a team of 6 members, hosting 40+ prominent speakers, including Rajkumar Kanojia (Actor) and Dr. Neha Mehta (Psychologist).
- Promoted the webinars across various social media channels, including Facebook, Twitter, and Instagram, resulting in over 25k views and a 50% increase in social media engagement.

PregBuddy

Data Analyst Intern

10/2020 - 12/2020

PregBuddy: AI-enabled care continuum platform between mothers, their doctors, and care providers

- Categorized their user base and developed product recommendations for upsell through data analysis.
- Collaborated with the founders to align product recommendations with business goals.
- Utilized Excel and SQL to gather and analyze user data to make informed recommendations.

SKILLS

ReactJS, NodeJS, Javascript, JAVA, GIT, SQL, GitHub, Figma, HTML5, CSS3, APIs, Photoshop, WordPress, PostgreSQL, Microsoft Office, Canva, SquareSpace

PROJECTS

Movie-trailer web app using MERN stack

Domain: Web Application | Tech-Stack: ReactJS, JavaScript, NodeJS.

- Designed and constructed a responsive web application from scratch to view the latest trailers of movies and TV series.
- Developed several UI features, including a carousel slider for featured trailers.
- Implemented API integration with YouTube's API to dynamically fetch and display the latest trailers.
- Utilized Auth0 to create a secure and user-friendly authentication page for the web app
- Website Link - <https://hmovies24.netlify.app>

Weather App

Domain: Web Application | Tech-Stack: HTML5, CSS3, JavaScript.

- Developed a weather report web application using vanilla JavaScript, HTML5, and CSS3, enabling users to retrieve current weather data for any city in the world.
- Integrated the OpenWeatherMap API to fetch real-time weather information with 99% success rate in data retrieval and accuracy.
- Website link: <https://harish24-s.github.io/Webdev/Weather/>

Voice Selfie App

Domain: Web Application | Tech-Stack: HTML5, CSS3, JavaScript, APIs.

- Constructed an application which detects user's voice and takes selfie on command.
 - Used JavaScript libraries to access the mic and camera of the system.
 - Created HTML, CSS and JavaScript page for user interaction.
 - GitHub link: <https://github.com/Harish24-S/Voice-selfie.git>
-

CERTIFICATES

Web Development Masterclass - Online Certification Course, The Complete ReactJs Course, Complete SQL Bootcamp, Complete Wordpress Website Developer Course, Google digital Unlocked - Fundamental of Digital Marketing, Problem Solving using Computational Thinking

EDUCATION

B.Tech Computer Science

Lovely Professional University

05/2024

CGPA: 8.93

Intermediate

Narayana Junior College
